Dewitt, Mich.

Lansing, Mich., Aug. 21.—George Burton was killed and six persons were seriously injured in a street car accident at Dewitt, six miles from Lansing, Sunday evening. A car and trailer left this city heavily loaded with St. John's people, who were returning home from an afternoon ball game. Near Dewitt the trailer was derailed by an obstruction on the track and thrown into a ditch. Many of the passengers were caught under the heavy car and crushed.

PROSPECTS IMPROVE

PRESIDENT ROOSEVELT'S ACTION
HELD TO HAVE BETTERED
CHANCES OF PEACE.

THE RESULT STILL IN DOUBT

BUT NEUTRAL POWERS ARE DO-
ING THEIR UTMOST TO BRING
THE WAR TO AN END.

Portsmouth, N. H., Aug. 21.—The chances of peace have undoubtedly been improved by President Roosevelt's action in stepping into the breach in a last heroic endeavor to induce the warring countries to compromise their "irreconcilable differences," but the result is still in doubt.

The ultimate decision of the issue has defacto if not dejure passed from the plenipotentiaries to their principals, from Portsmouth to St. Petersburg, and perhaps in a lesser extent to Tokio. Although there are collateral evidences that pressure both by President Roosevelt and neutral powers, including Japan's ally, Great Britain, whose minister, Sir Claude MacDonald, according to advices received here, had a long conference Sunday with Mr. Katsura, the Japanese premier, is still being exerted at Tokio to induce Japan to moderate her demands, there is also reason to believe that President Roosevelt was able at his interview with Baron de Rosen to practically communicate to the latter's senior, M. Witte, Japan's irreducible minimum—what she would yield, but the point beyond which she would not go.

Whether an actual basis of compromise was proposed by the president cannot be stated definitely. The only thing that can be affirmed positively is that if Russia refuses to act upon the suggestion or proposition of President Roosevelt the peace conference will end in failure.

Little Encouragement Given.

And in the Russian camp little encouragement is given. Baron de Rosen reached here after an all-night ride from Oyster Bay, shortly before noon Sunday and immediately went into conference with M. Witte. They remained closeted together for almost three hours, during which the whole situation was reviewed. Baron de Rosen communicated to his chief the president's message and it was transmitted to the emperor, together with M. Witte's recommendation. No clue to the nature of this recommendation has transpired. But it can be stated that M. Witte, no matter how he personally may view the proposition, is distinctly pessimistic as to the character of the response which will come from St. Petersburg.

To a confidential friend Sunday he offered little hope of a change in the situation.

The Japanese, it is firmly believed, cling to the substance if not the form of their demand for remuneration for "the cost of the war."

Perhaps they are willing to decrease the sum asked, but substantial compensation under whatever guise it is obtained, they decline to relinquish. And they are also firm upon the cession of Sakhalin. By the transfer of the southern branch of the Chinese Eastern railway first to Japan for relinquishment to China, payment for the maintenance of the Russian prisoners, and the surrender of the Russian warships, it is possible to figure out a total transfer to Japan in money and property of about \$250,000,000. But this is the limit.

Japanese Very Reticent.

The Japanese, as usual, are very reticent and it is impossible to obtain from them the least indication of their view of the change in the situation produced by the president's action.

It is taken for granted that the president's appeal was made to Japan as well as to Russia, but the Japanese side of the negotiations looking to a compromise is almost completely in the dark. It is assumed that Baron Kaneko was able to explain the Japanese views to the president. If the president is successful with Russia it may be that he must then turn to Japan. That would be the natural course if he has suggested to Russia what he regards as a fair compromise and has undertaken, if Russia accepts, to use his influence to induce Japan to accept. But it is now probable that he was able to assure M. Witte in advance of Japan's agreement to accept. Nevertheless, Mr. Takahira Sunday spoke as if he might be called to Oyster Bay. He would only say positively that he had as yet received no summons.

The Japanese view of the situation is authoritatively but rather humorously stated thus:

"The result will be known soon. It is useless to speculate. As well for the physician to give his opinion of the sex of the unborn infant. When

the child is born we will be able to tell whether it is a boy or a girl."

Emperor Nicholas' decision, upon which the fate of the conference seems now to hang, will, according to the best informed Russians, depend upon conditions at home and these conditions they do not believe are propitious. The two big factors are the internal conditions and the reports from the front as to the military situation. The former has been ameliorated by last Saturday's manifesto and the character of the reports received by his majesty from Manchuria are known to be good.

General Linevitch has expressed absolute confidence in victory and since the conference began he and his generals have not only reassured his majesty that the army was never in better condition, but they have sent messages to M. Witte imploring him not to make peace. They demand an opportunity to retrieve the "honor and prestige" of the army and in a country where the army is the bulwark of the government, the wishes of its generals are not lightly to be disregarded by their sovereign.

Not only to make peace but to pay tribute to the enemy would therefore be a very difficult task for the emperor, notwithstanding his love and desire for peace.

The issue will not necessarily be decided on Tuesday. Indeed, it is quite likely there may be some delay in the answer from St. Petersburg, in which case an excuse will be found to adjourn the meeting over from day to day. The Japanese will not be impatient, but the final decision will without doubt come this week.

PLAN OF ROOSEVELT

PRESIDENT PROPOSES THAT AR-
BITRATION BE INVOKED TO
END DEADLOCK.

Portsmouth, N. H., Aug. 21.—The Associated Press is able to announce that the feature of the proposition of President Roosevelt, communicated through Baron Rosen to M. Witte and transmitted by the latter to Emperor Nicholas, was based upon the principle of arbitration. Whether the proposal contemplates arbitration upon all articles upon which the plenipotentiaries have failed to agree or only upon the question of indemnity cannot be stated with positiveness, but it is more than probable that it relates only to indemnity or to indemnity and the cession of the island of Sakhalin. Neither is it possible to say whether the president has yet made a similar proposition to Japan. The customary diplomatic proceedings in such a case would be to submit the proposal simultaneously to both countries, but there might be an advantage in securing the adherence of one before submitting it to the other. To Emperor Nicholas, the author of The Hague peace conference, the suggestion of arbitration, which will necessarily immediately command the sympathy of the public opinion of the world, will be particularly hard to reject. If he shall agree, Japan, if she has not already done so, will be all the more bound to submit her claims to the decision of an impartial arbitrator. Acceptance by both sides would involve a great extension of the principle of arbitration, as nations have heretofore declined to arbitrate questions involving their honor and dignity.

Both Mr. Takahira and M. Witte, in the earlier stages of the conference, absolutely rejected the idea of arbitration and only Saturday both reiterated their disbelief in such a solution.

It was noticed, however, that M. Witte's opinion was not expressed as strongly as it was last week.

RUSSIA'S OFFICIAL ATTITUDE.

Unchanged Regarding Final Reply to Japan.

St. Petersburg, Aug. 21.—Russia's official attitude regarding the final reply to be made to Japan on Tuesday is unchanged. The impression prevails, as heretofore, that only a very great concession on the part of Japan on the question of indemnity and the cession of Sakhalin will make peace possible.

The questions pertaining to the limitation of Russia's naval power and the surrender of her interned warships are considered here to be quite susceptible of satisfactory arrangement and not liable to cause serious trouble. An interesting development of Sunday was the statement from the very best authority that the foreign office does not believe that Aug. 22 will necessarily see the conclusion at Portsmouth of the conference, but that there will be further exchanges between the plenipotentiaries lasting two and perhaps three days. In some quarters this is taken as a sign that there is still hope for a settlement on a basis of concessions by the Japanese.

M. Witte's full reports are being submitted through the foreign office to the emperor. There has been no meeting of the grand dukes to consider these reports, but the emperor has been in consultation, and will con-

CROWDED TROLLEY CAR STRUCK
BY TWO BOX CARS AT CROSS-
ING IN BUTTE, MONT.

MOTORMAN HELD TO BLAME

LOST PRESENCE OF MIND AND
DID NOT STOP LONG ENOUGH
AT THE CROSSING.

Butte, Mont., Aug. 21.—A Great Northern freight train struck a crowded Columbia Garden car on the crossing at the Butte, Anaconda and Pacific railroad depot here Sunday night. Ten people were killed and many others were injured.

Maggie Harrington of Butte is among the killed. Miss Shaw, a young lady at the Florence hotel, Butte, is dying.

The following are among the injured: John Harvey, Spokane, Wash.; Bridget Murray, Mrs. Mendel and Ed Masters, all of Butte.

Butte, Anaconda and Pacific engine was making a flying switch with two box cars. The motorman of the trolley car stopped at the track as usual, but seems to have lost his presence of mind and turned on the power. When the open trolley car was half way across the track on Utah street, the box cars struck it in the center and a pile-up resulted.

The trolley car was struck with such force that it was knocked twenty-five feet and smashed into kindling wood. Nothing but the trucks remain.

ONE KILLED AND MANY HURT.

Interurban Car Jumps the Track Near Milwaukee.

Milwaukee, Aug. 21.—A Fox Point interurban car, with forty passengers returning to the city after a day in the country, went over an embankment four miles north of the city late Sunday night and one unknown man was killed and from twenty to thirty persons were injured and were taken to a local hospital. Electric railway and hospital officials, however, will not give out the names of any of the injured. The car turned completely over after leaving the track at a forty-mile rate of speed.

Two of the victims are said to have died at the hospital.

THREE PERSONS DROWNED.

Father and Two Children Perish in a Wisconsin River.

Jefferson, Wis., Aug. 21.—Frank Hall, his oldest daughter, aged fourteen, and his oldest son, twelve years old, were drowned in the Crawford river Sunday about two miles from here. Hall and his wife were on the shore fishing while the two children were bathing. The girl was in dis-

tress and the father rushed into the river to rescue her. He succeeded in bringing her part of the way to shore when his strength failed and he sank. The son then made an attempt to rescue and shared a similar fate.

MAYOR DUNNE ARRESTED.

Accused of Violating Auto Speed Ordinance in Evanston.

Chicago, Aug. 21.—Mayor Dunne of Chicago was arrested Sunday in the suburb of Evanston for violation of the speed ordinance regulating the speed of automobiles.

The mayor, in company with his friend, John Boylston, was riding through Evanston, when he was stopped by a policeman who accused the chauffeur, Edward Sykes, of going too fast. All three were taken to the police station. The mayor remained outside in the automobile while the other two went in to appear before the justice.

"I don't know anything about the speed of these things," said the mayor, "but I don't think we were going very fast. However, we may have been and I guess we will have to pay our fine like anybody else."

Sykes was unable to decide whether he should pay his fine of \$10 until told to pay it by Mayor Dunne.

"Go ahead and pay the fine," advised the mayor.

It was paid and the machine moved away after Mayor Dunne had solicitously inquired concerning the speed limit in his own city, saying that he did not desire to be arrested again.

BIG IRRIGATION SCHEME

Details of Government Work in California and Arizona.

EACH STATE TO HAVE MAIN CANAL

Vast Dam to Be Built Near Yuma, Ariz.—It Will Be of the Indian Well Type—Complete System of Drainage Canals Planned to Prevent Irrigated Land From Becoming Waterlogged and Alkaline.

The great west is now alive with irrigation schemes in embryo. Under the Carey act the United States government has undertaken the reclamation of millions of acres of arid lands. In the California building at the Lewis and Clark exposition in Portland is a model of the famous Laguna irrigation dam near Yuma, Ariz., from which may be obtained a clear idea as to the working of this enormous irrigation system. The model, which is made of plaster, sand and small rock, mounted on a board 3½ by 7 feet, is the work of John R. Prince of the Los Angeles staff of the United States geological survey.

Laguna dam, the first and most nearly completed of the several important irrigation projects undertaken by the United States government, is being built in the foothills of the Sierra Madre mountains in southern California at a point ten miles northeast of Yuma in a cup of the hills where the Colorado river attains its greatest width. In no sense will the dam be a storage reservoir. It is to be constructed solely as a settling basin to free the water of the Colorado river from sediment and render it most available for irrigation of arid lands.

This dam and its associated works, the whole comprising what is known as the Yuma project, will require at least two years to build. The dam is to be of the Indian well type, 4,780 feet long; will have a maximum height of nineteen feet in the river channel and a minimum of ten feet across the valley, with a maximum sea level elevation of 257 feet in the river channel and a minimum sea level elevation of 233 feet across the valley, and the apron of the dam will have a width of fifty feet on the average level of the river bed. The dam will raise the low water level of the river ten feet.

There will be utilized in the construction of the dam 350,500 cubic yards of loose rock for filling, 27,150 cubic yards of rubble concrete for masonry, 80,000 square yards of rubble pavement two feet thick and 53,000 linear feet of sheet piling. This immense settling basin will have a maximum width of two and three-fourths miles and an average width of one mile. It will be ten miles long. Water will be discharged over the entire length of the dam at an estimated flood height of four and one-half feet.

The sluiceway on the Arizona side of the dam will be excavated in solid granite to an average level of the river bed and will be 116 feet wide, 800 feet long and 18 feet deep. It will be capable of discharging 24,000 cubic feet of water per second at high water. The sluiceway on the California side will be similarly excavated to a width of 40 feet, a length of 800 feet and a depth of 18 feet and will have a capacity of 7,000 cubic feet per second under the same conditions. On the Arizona side there will be three sluiceways of the Stoney type and one on the California side. Each will be 33-1-3 feet long and 18 feet high and will be operated by electrical hoisting mechanism. From the top of the sluiceways water to a depth of from 1 to 1.65 feet will be drawn off for irrigation purposes by the operation of the canal headgates, the surface water being freed of sediment then the water of the lower depths.

One main canal, ten miles long, with a carrying capacity of 2,000 cubic feet of water per second, and three main laterals will be constructed on the California side. On the Arizona side there will be a main canal sixteen miles long, with a capacity of 1,600 cubic feet per second; two branch canals, one twenty-one miles long, with a capacity of 632 cubic feet; the other, fifteen miles long, with a capacity of 240 cubic feet, and twenty-six main laterals, eighty miles long. The total length of the canal and its laterals will be 132 miles. Levees will be built on each side of the Colorado and Gila rivers from the Laguna dam to the Mexican boundary line and they will be constructed on the plan found to be satisfactory on the lower Mississippi. A complete system of drainage canals will be built to prevent irrigated land from becoming waterlogged and alkaline. Irrigable lands on the Arizona side embraced in the Yuma project are: Valley lands, 97,000 acres; mesa lands, 25,000 acres; the total available for irrigation by water pumped, 122,000 acres. There are corresponding irrigable lands on the California side aggregating 17,000 acres, all of which are contained in the Yuma Indian reservation. The drainage area of the Colorado river (i. e., the watershed) above the site for the Laguna dam is approximately 175,000 square miles.

The "Cult of the Child" in England. It is pleasing to note, says the Church Eclectic, that an astonishing revolution is taking place in the position of the child in England today, especially among the upper and middle classes of society. The "cult" of the child may indeed be said to be just now a fashionable craze and one that we hope has come to stay, for though at present the tendency is perhaps to set an exaggerated estimate upon the sayings and doings of child life, yet upon the whole the movement is undoubtedly in the right direction.

LORD CURZON IS OUT

VICEROY OF INDIA TENDERS HIS RESIGNATION AND IT IS AT ONCE ACCEPTED.

HIS SUCCESSOR APPOINTED

TROUBLE WITH LORD KITCHENER RESPONSIBLE FOR VICE-ROY'S RETIREMENT.

London, Aug. 21.—Lord Curzon of Kedleston, viceroy of India, has resigned. His resignation has been communicated to King Edward.

The resignation of Lord Curzon as viceroy of India and the appointment of the Earl of Minto as his successor, was announced at the Indian office Sunday night.

According to the correspondence, which is issued in the form of a White Book, it appears that Lord Curzon's resignation was cabled to that office on Aug. 12. The correspondence shows a decidedly bitter feeling between Lord Curzon, the Indian office, and Lord Kitchener, commander-in-chief of the forces in India, over the new plan of army administration in India. Lord Curzon's dissatisfaction came to a head with the refusal of the cabinet to appoint Major General Sir Edmund Barrow, on Lord Curzon's recommendation, military supply member of the council.

Replying on Aug. 2 to the refusal of Mr. Brodrick, secretary of state for India, to make this appointment, Lord Curzon requests that the government reconsider its decision, which Mr. Brodrick again refused to do, and Lord Curzon said that "the situation, therefore, remains where it was when I resigned in June. If the government is unable to accept by views I request the premier to place my resignation in the hands of his majesty."

Mr. Balfour replied that he had "with the most profound regret submitted Lord Curzon's resignation to the king."

Supplementary dispatches after the receipt of the resignation showed that Lord Curzon and Lord Kitchener were unable to agree over the details of the reorganization.

JAP CABINET MEETS.

Peace Conference Supposed to Have Been Discussed.

Tokio, Aug. 21.—The cabinet met at 11 o'clock a. m. at Premier Katsura's residence. It is understood that Premier Katsura presented an extended resume of the proceedings at Portsmouth and explained the deadlocked questions. The government is silent, but it is generally believed that a rupture of the conference is inevitable.

The cabinet meeting adjourned at 1 o'clock and afterward Premier Katsura drove to the palace and made a report to Emperor Mutsuhito.

Later the premier received Sir Claude M. MacDonald, to whom he granted an extended interview, presumably with relation to the crisis in the peace conference at Portsmouth.

Following the call of the British minister, the premier conferred with Minister of War Terauchi, Minister of Marine Yamamoto and the Chinese vice minister of foreign affairs. The premier and his conferees declined to discuss the situation.

The foreign office Sunday announced that it was intended to adhere to the policy of secrecy until some conclusion had been reached.

LITTLE PROSPECT OF WAR.

Sweden and Norway to Amicably Settle Trouble.

Christiania, Aug. 21.—The storming will assemble during the day. The Associated Press is informed that the Norwegian government within a day or two will submit a proposal relating to the dissolution of the union of Norway and Sweden. Both governments are anxious to secure a solution of the difficulties at the earliest date possible. Consequently it is understood that the storming will request the riksdag to secure dissolution of the union by a formal resolution and repeal of the treaty and will immediately authorize the government to negotiate with the riksdag concerning Sweden's conditions.

There is an apparently strong feeling against the acceptance in toto of Sweden's terms, especially against the destruction of any fortress. Should Sweden not recede it is considered probable that Norway will propose arbitration of the disputed points.

INJURED GREATLY IMPROVED.

Those Hurt in Auto Accident Getting Along Nicely.

Newport, R. I., Aug. 21.—Those who escaped death but were injured in the automobile accident here Saturday are now greatly improved. During Saturday night Miss Evelyn Walsh, daughter of Thomas F. Walsh of Washington, suffered much, but Sunday she was much easier. Her injury is a fracture of a thigh bone. Miss Walsh has not been informed of the death of her brother, Vinson, who was fatally injured when his machine tore through the guard rails of the high bridge and landed in the creek. Mrs. James L. Krenochan of Hempstead, L. I.; Harry Oelrichs and Herbert Pell, both of New York, are much better and the latter was out of doors Sunday.

IN HONOR OF SECRETARY TAFT.

Three Wonderful Demonstrations Held at Zamboanga.

Manila, Aug. 21.—Advices from Zamboanga say that three wonderful demonstrations were held there in honor of Secretary of War Taft and party. All the tribes in the Moro provinces and the leading dattos were represented. There was a procession, a drill by Moros, a parade and native dances. At night there was a dance at the Army and Navy club and a reception by the Mindanao club.

The Twentieth infantry, commanded by Colonel Mauz, led the parade and hundreds of school children sang in English.

OUT ON THE IRON RANGES

Shaft on Section Eight East of Here is Down About Sixty-five Feet

DRILLING ON THE SWARTZ PLACE

Little As Yet Can Be Learned of The Results But Indications Are Good

A real estate man was heard to remark a few days ago that more land had changed hands within the past month on the Cuyuna range than at any time since drilling started two years ago, and there is hardly a day now but that some new interests come to Brainerd and after looking the field over dip in just a little to be sure and be on when the big boom comes. As the weeks and months pass by business men and others interested in the mining properties on the Cuyuna are becoming more and more interested and with this interest there is a growing confidence that this will be one of the greatest ore regions in the country, not even excepting the Mesaba ranges.

The most skeptical have sort of come to their senses and they are now with the army of other moneyed interest getting some holdings, and paying good prices for the same.

The center of interest is naturally at what is called the Sivert Olson place on section 8, where the shaft is being sunk by the Pickands-Mather company. This shaft, a substantial working construction, is now down 65 feet and it is understood that the report is out that within a few weeks the company expect to produce something which will open the eyes of the mining world. The men in charge of the work here have encountered some trouble with water the past few days. A sort of gusher was struck at the 65 foot level and yesterday the shaft was nearly full of water. This does not in the least deter the work, however, for two large and powerful steam pumps are at work and the water will be pumped out immediately.

At all other points along the range where drilling is being done the indications are promising and there is yet to be found a real bad report from any one of the fifteen or more drills that are at work.

Naturally Brainerd people are very much interested in the drilling on the old Swartz driving park. Here is where L. E. Lum and others have become interested. Cole & McDonald have the contract to do the drilling and they are now down about 125 feet. But little can be learned yet as to the results, but it has been given out that the prospects here are even better than those who are interested had a right to expect and they are greatly encouraged. The sentiment is fast changing as regards to the iron range and there is now a strong belief that nothing can head off the prosperity which is sure to come to this region.

WOMAN DIES FROM FRIGHT.

Fear of a Tornado at St. Paul Proves Fatal.

St. Paul, Aug. 21.—Fear that the storm of Sunday evening would be a repetition of the tornado of a year ago caused the death at 8:10 o'clock Sunday night of Mrs. Marie Geiselmann, aged sixty-nine years.

Lightning struck a street car at South Wabasha and Wood streets at 9 p. m. and caused a panic among the passengers. Florence Simmons fell unconscious from the shock and may die.

There were rumors in St. Paul Sunday night of tornadoes at Hastings and Winona, Minn., but they could not be confirmed. The storm at St. Paul did no damage.

HAPPY WOMEN.

Plenty Of Them In Brainerd. And Good Reason For It.

Wouldn't any woman be happy, After years of backache suffering. Days of misery, nights of unrest. The distress of urinary troubles. She finds relief and cure? No reason why any Brainerd reader Should suffer in the face of evidence like this:

Mrs. J. H. Zellers, of 915 Main St., Brainerd, Minn., says: "I believe that after what Doan's Kidney Pills did for me they will help anyone similarly troubled. Before using them I suffered for six months from my kidneys. There was a miserable feeling of pressure over those organs and the secretions were scanty. Besides this there was a heavy pain across the small of my back. A box of Doan's Kidney Pills were gotten at a drug store and I took them with the result that they acted like a charm. I can truthfully say that I have not had a symptom since."

On October 23, 1904, six years after giving the above statement, Mrs. Zellers says: "I am just as glad to recommend Doan's Kidney Pills today as I was in 1898. I have not had an attack of kidney trouble since I used Doan's Kidney Pills, and must give them credit for a permanent cure."

THE GREAT DAN PATCH

Fastest Harness Horse to go Against Record at Minnesota State Fair, on Monday, Sept. 4, Only

The greatest and most sensational event of the season in the Northwest will be the appearance of Dan Patch, the fastest harness horse in the world, at the Minnesota State Fair on Monday, Sept. 4.

Dan Patch now has a record of 1:56 and will attempt to lower this world's record at the Minnesota Fair. He is now in training for this appearance and is in a condition which warrants the greatest of expectations for his success.

Since the last fair the track at the Minnesota grounds has been re-surfaced and put in the pink of condition. Two years ago Dan went on this track with in half a second of his then best speed and with the better track conditions should again establish a new world's record.

Dan Patch will be at the fair on Monday Sept. 4th only. He will appear in the afternoon, first warming up with a few exhibition heats and then going the mile against the record with two pacemakers running at either side. The fair will be in perfect condition on Monday—Opening Day—and it will be the best day of the whole week.

Half rates to Minneapolis and St. Paul are announced on all railroads.

Weak, Nervous, Worn Out Women

Bloodless, Irritable, Despondent Women, Subject to All Sorts and Varieties of Nervous Troubles, Find a Positive Cure in

DR. A. W. CHASE'S NERVE PILLS

The world is full of women whose daily life is one long struggle against diseases peculiar to their sex—whose days and nights are full of quiet, patient suffering. The head the seat of pain and pressure—the result of nerve depression and physical weakness brought on by uterine or ovarian trouble—the nerves on edge—inclined to laugh or cry at anything—an ever present dragging in the back, hips and limbs—a feeling of utter weariness—lassitude and despondency. To these people Dr. A. W. Chase's Nerve Pills are of incomparable value, having as they do the power to rebuild, to reinvigorate and resupply every organ, every nerve, every muscle with the lost energy, and to insure a complete return to health, strength and vigor again.

Mrs. John Bailey of Jackson St., Penn Yan, N. Y., says:

"I was told that Dr. A. W. Chase's Nerve Pills were a great nerve medicine, and as I needed one badly, I got a box. My nerves were very weak—I lacked ambition and strength and my heart action was very weak. I used the pills as directed and they made my nerves quiet and steady—the heart action strong and regular and the appetite good, my sleep became restful and I feel altogether like another person. I think as a remedy in female complaints as well, they are grand, curing the headaches and heavy, dragging feeling rapidly and easily—this I know from experience, and I am glad to recommend them." 5c a box at dealers or Dr. A. MUSIC AND DRAMA.

"THE CHAPERONS" TOMORROW

Tomorrow night at the Brainerd opera house theatre goers can have the opportunity of seeing something big in the musical comedy line for this is the date of "The Chaperons."

No musical comedy ever written has become so universally popular among all classes of theatregoers as Isidore Witmark's successful piece "The Chaperons". The production has always been kept at the very top-most notch of excellence as regards company, equipment and stage-management, a fact which, no doubt has much to do with the remarkable vitality of the piece.

The production this season is even more elaborate than ever before, an entire new dress of scenery has been painted, and a costly new wardrobe provided, while the company has been described as one of the best musical organizations in America. Some of the members of the company are: Madelyn Marshall, Ruth Lloyd, Doris Goodwin, Harry Ladell, John Price, George Lydecker, Frank Wooley, W. V. Strunz and others. Prices \$1.50, \$1.00, 75 and 50c. Seat now selling.

"SWEET CLOVER."

In the superb scenic production of

the comedy drama, "Sweet Clover", the patrons of the theatre in this city will see one of the prettiest plays of sentiment ever given to the stage in recent years. The following is a portion of the dialogue between the principal characters, "Jerome Holcombe", the picturesque old farmer, and his daughter "Lois".

"Place your heel on a clover blossom, no matter how tenderly the dew falls on it afterwards, it can't ever raise its head so cheerily again. I'm your broken slip of clover, Daddy, and if I live at all, if there's any sweetness left, it is because you love me."

"There's nothing in life like the happiness love brings, and if it comes to a woman's heart, and she shuts it out, no matter how she tries to fill her life, to be faithful to her duty, to forget, the old dream will not be banished, but will re-

turn again and again to haunt her with its sweetness."

"Sweet Clover" will come to the Brainerd opera house Thursday evening, Aug. 24.

"HONEST HEARTS."

Another real American play is coming, "Honest Hearts" with Alma Hearn in

the leading role. The author of "Honest Hearts", William L. Roberts, who wrote "On the Bridge at Midnight" and "Big Hearted Jim", has gone to Kentucky, in this instance for his romance, uncommon and genuine American types, charm of the south, picturesque scenes and quaint humor. His heroine is the daughter of an old Kentucky farmer who has only her beauty and honesty to commend her to an aristocratic young civil engineer employed on the government improvement in the Cumberland river near her father's farm. Wild, mischievous, uneducated she presents a

combination of characteristics which none but clever Alma Hearn could cope with successfully on the stage. The play is overflowing with good comedy and the four elaborate scenes, on river and farm, should satisfy all reasonable expectations of stage pictures. Friday evening, Aug. 25 is the date.

EAGLES ELECT OFFICERS.

Milwaukee Chosen as Next Meeting Place of the Order.

Denver, Aug. 21.—The grand aerle of the Fraternal Order of Eagles finished the balloting for officers at an early hour Sunday, after an almost continuous session beginning at 11 o'clock Saturday morning. Milwaukee was selected as the next meeting place by a bare majority over San Francisco.

The full list of new officers is as follows: Grand worthy president, H. D. Davis, Cleveland; vice president, Edward Krause, Wilmington, Del.; secretary, A. E. Partridge, Kansas City; chaplain, Joseph T. Hinkle, Pendleton, Ore.; treasurer, Frank E. Hering, South Bend, Ind.; conductor, M. F. Connolly, Springfield, Mass.; inside guard, W. G. Pettis, Norfolk, Va.; trustees, Joseph Ellis, Minneapolis; W. N. Carr, Uniontown, Pa.; R. M. Minnehan, Chicago; M. H. McNabb, Wheeling, W. Va.; J. J. Kennedy, Buffalo, N. Y.

Kansas City aerle's drill team was awarded the first prize, a \$750 banner, for the best exemplification of the new rituals. This team scored 93 points out of a possible 100.

There is more catarrh in this section of the country than in all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
